LOCAL CORRESPONDENTS WANTED.

The Bible Institute Colportage Association, 250 La Salle Avenue, Chicago, is seeking to widen its constituency and scope of good to be done through the dissemination of the Gospel by means of the printed page, through Christian workers and laymen everywhere, especially in the rural districts. They wish to effect a more or less permanent organization of local "correspondents"—Christians who are in touch with spiritual conditions of their home town, who know the Christian workers, Sunday school teachers and similar laymen, and who could assist the Association, especially in carefully distributing announcements and catalogues of Gospel literature, Bibles, etc. The local representative will not be required to sell the publications of the Association, though orders will naturally and easily come to him, and on such a cash commission will be paid. For the work of distribution of printed matter and such other simple service as may be rendered, the Association will give liberal remuneration to the correspondent in valuable books. Interested readers of this announcement are invited to address the Association for further particulars. The plan is adapted for men and women alike, and to those connected with any evangelical denomination.

HON. D. L. MOORE.

Of Mercer county, is a candidate for Congress in the Eighth district, to succeed Hon. G. G. Gilbert, subject to the action of the Democratic party. Your support is earnestly solicited.

SENATOR MCCREARY commenting on the coming Presidential election, said:

"If we are to have any hope of success in the coming presidential election, the democratic party must take up the questions that confront us today, and, in addition, we must have both conservatism and harmony. I feel quite sure that the democrats of my state, who redeemed themselves in the last national election, would much prefer this year to go into the fight on live issues. With a strong, earnest and conservative candidate, who will harmonize the party, and a platform covering the questions uppermost in the public mind today, the democracy can redeem itself in the nation.

"Of all the men mentioned to lead the party in the coming campaign, it seems to me that Senator Gorman, of Maryland, and Judge Parker, of New York, more than any others, come up to the required standard. As for issues, I favor tariff reduction, economy in the administration of the government, and honesty among our public servants. Our tariff today is higher than any other on earth, and the people will demand that it be reduced.

"Since I entered congress, sixteen years ago, the expenditures for carnage on this government have nearly trebled. This is not as it should be. The expense can be reduced and the public service will not suffer. The complete elimination of corruption among government officials by investigation and the punishment of the guilty should be the democratic promise."

The murder of Miss Sarah Schaefer, the Latin teacher at Bedford, adds another black page to Indiana's history. If the "Hoosier" state continues in the same path, that it has been traveling for some time in the past, many will be its blackened pages. The "blood-thirsty mountaineers, desperadoes and assassins, of Kentucky," as the Indians delight to call them, have never placed to their credit a crime more dastardly, than the two willful murders, that of Miss Gillespie by her own brother about two months ago, and that of Miss Schaefer only last week, which proud Indiana now has to his discredit.

OUR Representative, W. A. B. Davis, has introduced a bill in the Legislature imposing a fine of \$10 on all persons who attend theaters and other similar public places and fail to remove their hats or bonnets. We trust how soon this will become a law, for high hats and big bonnets are the cause of many a long neck.

Whether Senator Reed Smoot, Republican of Utah shall retain his seat is being argued before a Senate committee at Washington. The prosecution charges that Smoot "knew of and connived at" the polygamy of six apostles. He says he thought he had Bible authority for knowing and conniving.

William Jennings Bryan is slated for Senator from Nebraska to succeed C. H. Detrich, Republican,

It is a far cry from Alaska to Hawaii, but both of these territories will send delegates to Chicago. Pilipino and Porto Rican will now stand up and read the constitution.

Prohibitionists and socialists will hold nominating conventions with the purpose of entering their very dark horse in the Presidential campaign. The more the merrier.

THE editors of the Somerset Journal and the Somerset Republican have kissed and made up. Wonder how long before it will all be to do over again?

Murphy, the Tamany chieftain, says this is Democratic year and Cleveland would be elected if nominated. So, he thinks, would several others.

Hanna knows how to shuffle the cards and get the trumps. It is not a bad deal by a good deal.

DEFINITIONS OF "HOME."

The blossom of which heaven is the fruit.

The place where one is treated best and grumbles most.

Home—a casket containing the most precious of all jewels—domestic happiness.

A little hollow scooped out of the windy hill of the world as a shelter from its cares and vexations.

The only place on earth where the faults and failings of humanity are hidden beneath a mantle of charity.

The central telegraph office of human love, into which runs innumerable wires of affection, many of them extending thousands of miles but never disconnected from the one great terminus.

"Boys, let's play a joke on Aunt 'Cindy.'"

Aunt 'Cindy' had nursed Bob, had been with his family during his youth, and now that he had grown to be a young doc she considered it her duty to clean up his office every morning. The office contained a human skeleton, beyond which it was arranged that one of the boys secret himself, and when Aunt 'Cindy' entered the room he was to shake the skeleton and frighten the wits out of the negro. The morning was propitious—dark and misty. Aunt 'Cindy' had just gotten down on her knees and begun to rub. We were all jamming handkerchiefs in our mouths to keep back the laughter. The fellow chosen for the job rattled the framework violently. Aunt 'Cindy' looked quickly in the direction whence the noise came, and could just see the skeleton outlined dimly in the dark corner. But she didn't frighten. She simply said: "Go on 'way fum vere, Mis'ah Bob. I knows yuh whe'er yuh got yo' clo's on ur not." And Bob bought the cigars, for the crowd.

The choosing of a successor to Bishop Dudley will begin in May at the annual meeting of the Diocesan Council, when some one will be placed in nomination, but two months or more may elapse before the consecration of the new bishop. As the office is the most important in the Episcopal Church, a careful safeguard is thrown about it, and the selection of a bishop must of necessity be after mature deliberation, in which not only one diocese but the entire church in the United States has an equal voice. The honor of this important office is bestowed after the clergy, the laity and the bishopric have concurred in the selection, and the methods of the church in making the selection is commenced when a name is selected by a majority of the votes of laity and clergy composing the Diocesan Council. When a nomination has been made by the council, the secretary of the diocese so notifies the standing committees all over the diocese, which act places the nomination before the general church, and the person nominated must then receive a majority of the votes of the standing committees, which are composed equally of laity

NOTES AND COMMENTS.

"The multitude." Not mentioned in Matthew and Luke. The three accounts should be read, as they supplement each other. Jesus was now a prominent figure in Judea and Galilee, and though He had just come to Capernaum, His fame had preceded Him, and crowds followed Him everywhere. "The word of God." Word from God. Jesus "brought word," good news, a communication from God. "The lake of Gennesaret." More commonly called the Sea of Galilee. It is 13 miles long, and, at one point, eight miles wide. When Jesus, who had been driven from Nazareth, descended to it—it lies 680 feet below the level of the sea—it was one of the most beautiful spots in the world. The upper hills were covered with fine oaks, and the lake was surrounded with stately palms. Now the hills are bare except for clumps of thorn bushes and thickets of oleander. Few of the palm trees have survived. In the time of Christ there were nine cities on the lake, averaging 15,000 inhabitants each. Only one remains, the miserable, fever-stricken town of Tiberias. The lake is no longer covered with the sails of fishing fleets, though it is still full of fish. "Washing their nets." The nets were similar to the large seines used now. Such nets always collect more or less dirt, water-logged sticks and the weeds that grow on the bottom. "Taught the multitude out of the boat." The rabbis usually sat down to teach. This is one of the fascinating pictures of Christ. He did not wait for them to come to His church, but He went to them. He joined the fishermen at their work and taught them while they worked from a boat, and it was so that He won His first disciples.

The final appeal of Jesus to these sturdy fishermen was a strong one. It was not high logic, nor did it seek to win them through their emotions. He simply entered their sphere of life and made Himself one of them. For the moment He was a fisherman and a master fisherman, and under His quiet direction these men who had followed the sea all their lives accomplished what they had not been able to do in a whole night's toil. They were amazed, impressed, won. Nothing wins its way into the heart of the able and honest workman like the discovery that one who is distinctly above him, as men commonly rate things, one who he himself sees is far above him intellectually and spiritually, does not consider himself made of a better kind of clay, but knows like a master the work in which he is himself engaged. Jesus showed the fishermen a mastery of the sea which no man had ever before approached, and this, in addition to the marvelous Gospel of the Father which He preached. They were His heart and soul, from that day forth. "Master, we toiled all night," etc. Peter seems to have made the attempt more in deference to Jesus than because of great hope of success. At the same time he had seen enough of Jesus to have confidence in Him even when He spoke of things not spiritual. It was real faith.

"Simon Peter, when he saw it." His full name is here given, for this is the turning-point in his life; he enters now on a new career, in which the new name is better known.—Prof. Riddle. "Depart from me," etc. "St. Peter did not mean the 'Depart from me,' he only meant—and this was known to the Searcher of hearts—I am utterly unworthy to be near Thee, yet let me stay."—Farrar. "James and John." The elder would probably be named first. James was the first of the disciples to be martyred. John we know as the "beloved disciple" and author of the Gospel of John. Andrew, who was probably with Peter, is not mentioned by Luke. "Partners with Simon." The first men Jesus took to work with Him were men who had learned to work together.

"From henceforth thou shalt catch men." The announcement to Peter that he had a mission—that men, not fishes, were to interest him from that time on. And Peter believed Jesus. He had seen too much of Him to doubt. "They left all and followed Him." Andrew, James and John were called as well as Peter. They were completely won and cast in their lots with Him for life. Now it was unbounded personal devotion. Later there was added to it devotion to the cause. It was a serious time for them. They could not look far into the future, and it is a mercy they could not. In less than three years their Master was to go to the gallows or its oriental equivalent, and few of them were to die natural deaths, but for all that no men in the world's history ever had a more blessed life than they, and their names to-day are among those held sacred in every Christian land.

A RADICAL CHANGE.

Famous Training Quarters for Athletes to Become a Convent.

"Billy" Muldoon, the Well-Known Former Wrestler, Presents His Estate for Educational and Charitable Purposes.

"Billy" Muldoon, the famous wrestler, has presented his extensive and beautiful estate, known as "Muldoon's Farm," previously used as a training school of his art, to St. Patrick's Roman Catholic church, of Belfast, New York, to be converted into a convent. The entire property has been given to Bishop Colton, of Buffalo, who was formerly pastor of St. Stephen's Roman Catholic church, in New York.

The "Muldoon Farm" is well known throughout the United States as the place where many famous athletes have been trained into condition for championship contests, and where, also, many prominent members of New York's "400" have studied physical culture. The only condition which the former owner has attached to the transfer of the buildings and grounds to Bishop Colton is that it should always remain the property of the church, and that the mansion should be used exclusively as a convent, while the other buildings should be utilized for educational and charitable purposes. Bishop Colton will set about at once to convert the buildings into the uses for which they were given by the generous donor.

"I desired to give my property," said Muldoon, "to some church or organization where it could be converted into worthy, charitable purposes, and in looking over the field in New York, I have finally decided to present it as a free gift to the Roman Catholic church, which, I feel confident, will carry out my wishes and desires."

It was at Muldoon Farm that John L. Sullivan, the famous pugilist of his day, was rehabilitated. Hundreds of influential and prominent men of New York, including leading representatives of the financial and social world of the Empire state, have been visitors and temporary residents of Muldoon Farm in years gone by and gratefully admit that the unique treatment they then received, coupled with the compulsory participation in novel exercises in physical culture that were enforced under the roof of the farm, was the chief factor in regaining for them health and happiness.
